

## **Global Food Solutions named to Inc.5000 fastest growing private - companies in America list for a second time**

***The annual Inc.5000 recognizes America's top private companies based on exceptional year-over-year growth and innovation***

**HAUPPAUGE, NEW YORK, USA – August 16, 2022:** Global Food Solutions Inc. (“GFS” or the “Company”), one of the nation’s largest providers of nutritious school breakfast and lunch products for kids, today announced that it has been named to Inc. Magazine’s (“Inc.”) prestigious Inc.5000 list recognizing the fastest growing private companies in America for 2022. GFS was ranked 4,193 of 5,000 companies listed.

This marks the second time GFS has been ranked, following its first ranking to the Inc.5000 in 2017. Best known for its RightStart Foods™ school breakfast products, GFS has expanded its growth by scaling and providing critically needed nutrition to students over recent years, ultimately driving 111% in annual growth. Each year, GFS ships over 100 million portions of food across the country.

“The ability to scale sustainable food solutions to reach more kids across America has been a key driver of our growth. When kids eat better, they learn better,” said Michael Levine, Chief Executive Officer, GFS. “While the past several years were significantly challenging for us and many others in the industry, it was even more so for kids needing to learn. This compelled GFS to further innovate its offerings, resulting in new and nutritious food products that are locally sourced and manufactured, shelf stable, affordable for schools, and most importantly – loved by kids and requested by families.”

GFS was founded in 2004 and today serves over 7,500 schools and a variety of commercial institutions, while actively supporting local communities through its Global Cares Program. CEO Michael Levine currently serves on the Advisory Boards for anti-bullying charity BeStrong Global as well as Johnson & Wales University’s College of Food Innovation and Technology. In past he was named to Forbes Magazine’s 30 Under 30 list and recently received a Young Jewish Professionals (New York) 40 Under 40 award.

Inc. is an American business magazine, and its annual Inc.5000 list ranks companies by overall revenue growth over a three-year period. First established as the Inc.500 list in 1982, the list expanded to become the Inc.5000 in 2007 to recognize a wider entrepreneurial landscape in America. Today, the list encompasses the nation’s most successful private companies while celebrates innovation and leading entrepreneurs.
